Whether you have 1 or 1,000 recruiters in your organization, whether you are an Independent, Agency or Corporate Recruiter, you will get immediate benefit from using MatchPoint™ AND you don't require an internal IT department to support this software because we do it for you through our Software as a Service (SaaS) delivery model, sometimes also referred to as **Cloud Computing**. It's safe, simple, reliable, convenient and includes **FREE UPGRADES**. In short, like all of our HR solutions, if you have access to the web, you have access to the software, plain and simple.

Unlike the global Tier 1 ERP providers, we don't charge you an arm and a leg to pay for corporate infrastructure, expensive signage, hugely inflated fees to re-sellers or software licensing fees. Our approach is revolutionary - **we remotely configure, maintain and support MatchPoint™ to meet your current and evolving needs**; our fees are determined by your needs AND we will create an equalized monthly payment plan to suit your budgetary requirements.

Too good to be true? Not really. At Ascentii our reputation has been built on delivering measurable and sustainable value. So, before you decide to purchase an ATS somewhere else, save yourself time, expense and grief and contact us to see how we can configure and implement MatchPoint™ as a stand-alone system, bundle MatchPoint™ with our RoleFit Survey™ to automate the Job Applicant Screening process and/or integrate one or both with your existing IT Infrastructure.... **rank order thousands of resumes with the click of a mouse to identify top talent fast - shorten the applicant screening process from months to under 1 minute.** Contact us today for a demo of MatchPoint™ and a **FREE, NO OBLIGATION, 30-DAY TRIAL of our RoleFit Survey™**. Our proposals also include a business case that calculates your Cost/Benefit and Return on Investment (ROI); a 100% ROI within the first 6 months is typical. We're here to help.
